

Introducing the IEC LOCK.
Protection for your Computers & Appliances
Unique Female C13 & C19 Connector

Walcom are proud to announce a new product line, IEC LOCK, to compliment their range of connectors. Walcom provide Connector solutions throughout Australia and New Zealand.

The IEC LOCK is ideal for data centres, outside broadcasting, telecommunications, medical, military, maritime and most electrical applications.

The IEC Lock is unique in that it guards against accidental disconnection. The Connectors cannot be accidentally pulled or vibrated out of the inlet of computers, servers and most electrical appliances.

The Connectors are suitable for use with 'ANY STANDARD' IEC inlet.

For technical information regarding IEC Lock Cable Lengths, Cable Assemblies and Cable Size please contact Walcom.
